The Newton Chamber of Commerce

FRED C. BOND
President

RUPERT C. THOMPSON
Secretary

Newton is a city of beautiful homes, high civic standards, steadily increasing in size and importance and because of its proximity to Boston, has unusual advantages as a place of residence.

The Newton Chamber of Commerce is an organized, cooperative agency to advance the civic, industrial, mercantile, and development interests of all the Newtons.

There are three types of Membership—Civic—Business—Sustaining.

This organization is only made possible through the wholehearted co-operation and support of the people of all the Newtons. Every Citizen should be a member.

Join Your Chamber of Commerce.

It renders constant, practical and effective service and welcomes inquiries at its offices conveniently located at

The Newton Directory

MASSACHUSETTS

1938

Containing

Alphabetical Section (Page 193) Gives names, occupations and addresses of men and women, eighteen years old or over, and all business houses. The names of partners in firms are also given in this department. Wives' names are listed immediately after those of the husbands', enclosed in parentheses. Dates of deaths during the previous year are given, and, where possible, the addresses of people who have moved to other cities. Much other information is given that cannot be found elsewhere.

Business Finder (Page 129) All business houses, individuals in business for themselves, and professional men are listed without charge under the heading that best describes them. The more progressive houses, realizing that it pays to be easily found, pay a nominal charge for special listings in heavy type, under every heading where a buyer might look for them, cross-indexed to a descriptive space in the "reference section."

Street, House and Home Owners Directory (Pink Section) (Page 641) A Complete list of Streets, showing location of intersecting streets, and enabling one to tell at once between what streets a given number lies, and the quickest way to get there. All Residents and Places of Business are arranged in numerical order upon their respective Streets.

A Valuable Feature:

Homes Owned by Occupants Indicated by Symbol ©

(Note: this information is as given to our canvassers, and is not guaranteed by us. It should be of value as an indication, but not taken as legal proof of title.)

Advertising Department (Page 49) Where more information than is possible to give under the headings is placed on file for buyer's and seller's reference. It is an index to the leading business interests of the city, and a logical place to look for specific information.

Maps Sectional Maps covering the different parts of the City, preceded by a Key Map, will be found inside the Back Cover. A large Map covering the whole City on one sheet is on sale at bookstores and stationers, or may be ordered from the Publishers for thirty-five cents. The convenient sectional form is used in the Directory because of the difficulty of handling and refolding a large sheet.

Miscellaneous Information (Page 11) Organization of City Departments, giving officers—Post Office branches—Parcel Post zones and rates—Courts—Population tables—Calendar etc.

NEWTON

Interesting Facts Regarding the City

It is interesting to note just what Newton stands for to residents in other parts of the country. With its beautiful long avenues, its long lanes leading into beautiful wide parks, its streams and hills, its lovely gardens and artistic residences, it stands for prosperity and success. It signifies elegance and beauty, rather than fashion and display.

Although the march of time has brought changes to Newton in every part, though much of its barren land has been transformed into house lots and streets, though many of its old farm houses have been turned into modern dwellings, still Newton maintains an abundance of its natural beauty which has given it the name of the Garden City—wide-spread recognition as a city of beauty—a city of homes.

The Charles River winds its course along the northern and western boundaries for more than sixteen miles, adding utilized water power at its upper and lower falls and much beauty to the scenery for miles around. Newton has that same New England atmosphere which characterizes so many other Massachusetts cities, with its stable type of people whose interests are centered in their homes and the finer things of life. Each and every part of Newton typifies the modern "home city," a source of admiration to all visitors and of pride to its citizens.

A Few Historical Facts

As early as 1631 Newton was settled and fortified, less than a year after the foundation of Boston. In those days, Newton consisted of a large tract of land with a dwelling here and there—a modest settlement, but the foundation, nevertheless, upon which rests the beautiful progressive city of today. King's hand-book of Newton states "the domain northward of the Charles was acquired from the Indian queen, the squaw-sachem, Nanepashemet's daughter, one of her perquisites being a new coat each winter as long as she lived."

Newton was incorporated a town in 1688, being called New Cambridge until 1692; and having outgrown town government by 1873, was chartered a city in that year.

During the war with the Indians the men of Newton left their homes and families and fought with the rest of the settlers. There is a stone in Nonantum, known as the Eliot memorial, which bears this inscription: "Here at Nonantum, October 28, 1646, in Waban's Wigwam near this spot, John Eliot began to preach the gospel to the Indians. Here he founded the first Christian community of Indians within the English colonies."

During the period of the Revolutionary War, the men of Newton rose with the other men of Massachusetts and shared the hardships that the crude army led by the great George Washington endured. And so, history repeats itself down through the ages. There are many beautiful monuments and ancient landmarks, silent tributes to the men who so nobly answered the call to arms, from the early days when the settlers fought with the Indians, to the World War.

Population

The best estimates of the present population of Newton indicates that it is over the seventy thousand mark today. This shows a tremendous increase within the past decade. The steady stream of people who come to Newton yearly to make their homes here are of the thrifty, desirable sort—good citizens who soon blend into the social and civic life and share the pride of their neighbors in their adopted city.

Administration

The administration of Newton's city government is in the hands of safe and conservative executives, honest public-spirited citizens who have the best interests of the people at heart and in their minds. This is manifested by the high standards of administration which this city has always experienced.

Newton has a police force of 134 men, giving it protection at all hours of the day and night. Within recent years, all new modern fire apparatus has been installed. The fire

department with 107 permanent men is always ready at hand to meet every emergency.

Educational Opportunities

One factor which has always given Newton a high standing in the estimation of those looking for a good "home city" is its superb system of schools. Since the early days of 1699, when the first little schoolhouse was built and John Staples became teacher, holding his scholastic sessions four days in each week for a stipend of two shillings a day, the school system of Newton has grown nobly.

Since those early days, Newton has developed tremendously along educational lines. Now there are high grade modern buildings—schools of the highest type for this purpose, with proper exits and due caution against fires and other emergencies. There are also new modern high schools, and the number of pupils that enter the high schools has increased appreciably within the last decade. There also are several very fine private schools. The Lasell Junior College, with its beautiful spacious grounds, established 1851, has long been famous. This young ladies' academy has admitted young women from all parts of the United States.

Among other well-known private schools within the city are Mt. Ida School, Allen, Fessenden, and Country Day Schools. The higher institutions of learning are represented by Boston College, in the Chestnut Hill section of the city, and the Andover Newton Theological School (1825) at Newton Centre.

Newton also has a splendid playground system which has developed tremendously within the last decade. There are now many beautiful spots which have been turned into playgrounds for the young. These playgrounds are in charge of very efficient young men and women and the children are taught all sorts of healthful games, while other educational opportunities and interests are encouraged and promoted.

The Public Library

Another important factor which cannot be disassociated from the school room is the Newton Free Library. This was organized in September, 1869, and received the property of its sponsors, the Newton Library Association. In 1875 the stockholders of the association transferred the entire estate to the City of Newton. The location of the building is on Centre street, the ancient main thoroughfare of the town. The Newton Library contains 181,444 volumes and is continually adding to the collection. There are valuable reference books of all periods, as well as works of old and new fiction. There are also many beautiful and rare prints. There are now branch libraries in nine sections of the Newtons, the most recent one being that established in Waban.

Church and Social Activities

Church influence is strong in Newton, many social and welfare activities also centering in the church organizations, of which there are forty-seven in the city. The first church was organized in 1633.

There are over one hundred forty clubs and fraternal organizations in the city, a federation of Women's Clubs, Kiwanis and Rotary, and the Newton Chamber of Commerce.

Growth

History shows that the different parts of Newton have made rapid strides in development. In 1860 Nonantum Hill had only the Ricker family on its massive western shoulder. The greater part of it consisted of scrub oak, a lonely and desolate tract of land. Early in 1800 Newton Lower Falls was a tranquil little village with but ten resident families. In 1872 the village had risen to 940. A little later the village of Newton Highlands was not much more than a crossroads settlement in a region of farms. Nearby were shops of the blacksmith and wheelwright. But today Newton is a great modern city teeming with activities, ever growing, ever expanding. Beautiful modern structures are constantly being erected. Among the later ones the Angier Memorial School at Waban and the West Newton Memorial Library add much to the appearance of these sections. There are also the Christian Science Church and the Junior High School in Newtonville and Boston College in the Chestnut Hill section.

Business Activities and Opportunities

Although Newton is widely known as a residential city, it has various manufacturing activities. At Lower Falls is located one of the first paper mills established in the country. In Newton there are also machine shops, and factories engaged in the manufacture of fire alarm supplies, silk, worsted, rubber, paper boxes, curtains, railway signals, cordage, radio tubes, knit goods, &c.

There are numerous retail stores and specialty shops, pharmacies, modern sanitary markets and food shops, and up-to-date clothing stores well managed and well stocked, a complete range of merchandise at prices as low as any in the large centers.

Information regarding manufacturing opportunities, business facilities and residential advantages will be supplied on request by the Newton Chamber of Commerce, 634 Commonwealth avenue.

Information

in the mass seems like a dull proposition, but when we have a need of some person or thing nothing interests us more than getting information about that person or thing.

This directory looks like a big book to be walked around or fallen over or put out of the way, until you need some information that it contains—then it becomes the handiest thing around the place.

Has it ever occurred to you how much information you could get from this book, if you really knew how to use it?

There is a great mass of information here, arranged in a logical way that experience has shown most easily referred to. It does take a little study to know how to make full use, however, like anything else worth while.

A little study that opens up a new way to save time or increase accuracy is an asset to anyone. It may be you will find a lot of information you did not know was here before, that you would have spent a lot of time and trouble to find in other ways, and you will have increased your efficiency just that much. In buying, in selling, in shipping, correspondence, granting credit, sending bills, collecting money—

LIBRARY DEPARTMENT

Newton Free Library

414 Centre, Newton

Org 1869. Inc 1871. Transferred to City of Newton 1876. President of the Board of Trustees, Mrs Virginia M Hutchinson. Treas, Thomas Weston. Sec, Julius Lucht. Trustees, Thos Weston, Jas P Gallagher, Virginia M Hutchinson, Vincent P Roberts, Guy M Winslow. Appointed by Mayor and confirmed by Board of Aldermen.

Committee on Books, The President, ex-officio, Thos Weston, Jas P Gallagher. Committee on Buildings, The President ex-officio, Vincent P Roberts, Guy M Winslow Librarian, Julius Lucht, Assts, Alice Dickinson, Helen L Saunders, Mildred N Frost, Margt G Hooper, Marion H Lane, Helen P Lane, Ruby Tillinghast, Sarah S Wood, Marguerita A Woods, Virginia Beals, Emily Piser, Theresa Strong. Boys' and Girls' Library; Florence B Sloan in charge, Assts, Marie McLaughlin, Mary M Pratt, Ruth Newey.

The Library was incorporated in 1871, and was built, furnished and maintained for five years through the liberal contributions of citizens, a fund of over \$65,000, of which the late J Wiley Edmands contributed \$17,000, being formed for the purpose. In March 1876, the entire property of the Library was given to the City of Newton on condition of its maintenance forever as a Free Library. During the year 1912 a large stack room was added by the City, and soon after the various Library departments were re-arranged in the older part of the building. In 1928 an additional floor of stacks was added, and additional office space was arranged for

In 1926 the citizens of West Newton presented to the City a new branch library building and grounds, valued at over \$62,000, and in January 1928 the citizens of Newton Centre and Auburndale gave new buildings and land, valued at about \$63,000 and \$52,000 respectively. In 1930, the citizens of Waban presented to the City a new branch building valued with grounds at \$75,000. Three branches are housed in public school buildings, two in rented quarters, and one in a remodelled engine house. In 1934, the residence of the late John C Chaffin, 124 Vernon st, acquired by the city in 1930, was remodelled for "The Boys' and Girls' Library". The former quarters of that department in the main building now house the Art Department. A new branch library, Oak Hill Branch was opened Oct 4, 1937 in the new Oak Hill School on Meadowbrook Street.

On January 1, 1937 the Library contained 181,444 volumes, to which additions are constantly made. The Circulation for 1936 was 805,753.

For 1937 the annual appropriation by the City was \$91,808.73 for the library with its nine branches. In addition, there is the income from eleven funds, as follows: \$1,000 given by Alden Speare, the annual proceeds of which are about \$60, and are to be used in the purchase of works illustrating the manufacturing and mechanical trades; \$10,000 a bequest from David B Jewett, to form an art fund the income from which now realizes somewhat less than \$500 a year; a bequest of the late Chas A Read, from which about \$550 yearly can be received (not received in 1937); a bequest from John C Chaffin of \$5,000, the income to be used for books; \$5,000, given by John S Farlow, the annual income from which is to be used for the purchase of books for the Reference Department; \$5,000 a bequest from the late Miss Mary Shannon, \$500 from Frank H Howes for books, \$400 from Miss Sarah Lorane Graves, a former resident of Newton, now of New York City, to be known as the "Sarah Lorane Graves Fund" in memory of her sister Felicia Hemans Graves and her brother Dwight Webster Graves, the income to be devoted annually to the purchase of new books and periodicals; a bequest of \$1,000 for books, from the late Oliver Fisher; a bequest of \$6,000 from Horace S Cousens; since 1936 the Elizabeth Spear fund, income from \$1,000 for general purposes. There are also two other funds accumulating for the purchase of books for the Newton Centre Branch Library.

In addition to books and periodicals there is in the Newton Free Library a large collection of mounted photographs of art and industrial pictures; also over six thousand stereopticon slides of geographical and industrial subjects, and many stereographs. These are loaned to all desiring to make use of the material.

The library has also a large duplicate collection, the volumes of which are loaned for two cents a day, which is operated under the Howes fund

Main Library opens from 8 am to 9 pm. Sundays 2.30 to 5.30 pm, from November 1 to March 31

A Public Service Publication

Few lines of Business have such a varied clientele as has the City Directory. It serves high and low, rich and poor, with equal impartiality and with profit to all.

It answers the questions What? and Who? which arise in daily Business and fills a position occupied by no other publication under the sun. It is often used from its issue until it falls to pieces and seldom will you find one entirely discarded while its leaves cling together. A publication which is used so universally and whose life is so long, must appeal to every shrewd business man as a most desirable advertising medium.

WHO ADVERTISE IN THE DIRECTORY

are the up-to-date, wide-awake people of the community. Read their advertisements, you may find therein

SOMETHING YOU NEED

A Lasting Advertisement

**Insuring Maximum Coverage at Minimum
Cost Is Now Available**

City Directory Advertising lives as long as the book is current. It is readily at hand and can, through cross indexing of proper representation, be made easy to find and fully informative. Any business-man, desirous of effectively registering a service or product, in such a manner as will form a permanent advertisement, owes it to himself and his business to be thoroughly informed on City Directory Advertising.

Your City Directory is not alone a local medium. By a system of distribution through nearly 500 City Directory Libraries, your advertisement takes on a national aspect. Send for descriptive Library Folder and Privilege Card.

Too Late for This Issue?

Then arrange NOW to have your name properly listed and your business classified and cross indexed in the next edition of the Fall River Directory.

The Directory has become a universal necessity in looking up new prospects, in purchasing supplies, and in marketing products. Don't forget that directory advertising supplements and rounds out all your other advertising by giving the most explicit directions how to find you.

Put "We are listed in the Directory" in all your advertising copy. Addresses are often forgotten or mislaid, though the name is remembered. The firm that is properly listed under all headings in the directory that describe it's product is wise.

Investigate the City Directory, the book of many uses

NEWTON GENERAL DIRECTORY

1938

Copyright, 1938, Sampson & Murdock Co., Boston, Mass.

Wife's Name—Appears in parentheses following husband's name when obtainable.

Removals—Against names showing removals from the city, the post office is given; if into another state, both the post office and state are given.

Deaths—The date of death of citizens whose names appeared in the Directory, dying since the last issue, is recorded against the name in the present book.

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use

as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organization and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

Your Business on Record All Over America

**Hundreds of Directory Libraries Can Give Your
Advertisement National Circulation**

Thousands of your potential customers are visiting the City Directory Libraries of the United States and Canada every month seeking sources of supply and other information. These library locations are advertised and publicized consistently and continually. These libraries are maintained by the Association of North American Directory Publishers through the courtesy of the members who keep them supplied with City Directories as part of their service to the public. Is your product or service properly registered in these

libraries so that those looking may readily obtain the information desired? This library system is a sound economic feature that brings your product or service within the reach of millions at a cost to you that is surprisingly low in comparison with proven results. A folder, descriptive of this huge system of City Directory Libraries, together with a privilege card entitling you to the benefits of free usage, is yours for the asking, on your business letterhead. BOSTON, MASS.

NEWTON HOUSE DIRECTORY

DIRECTORY OF STREETS

and

List of Resident Property Owners

Note: For Lists of Streets by Postal Districts, see page 635
For Key Map of whole City, and Sectional Maps, see back of book.

At the beginning of each Street is given a description of that Street, where it begins and ends, what Ward and Postal District it lies in, and its coordinates on the Map.

Where a Street runs from one Ward or Postal District into another, a note is inserted thus: "From here, Waban".

Intersecting Streets show whether they lead from the right or left, and whether they begin, end or cross, thus: "Norman Rd begins (left)".

Householders and Places of Business are listed by their numerical location on each Street. **Resident Owners** are indicated by the symbol ©.

Direction of Street Numbers: The Newton system is to begin numbering at the north or east end of each street, so numbers generally run toward the South or West. As odd numbers are usually on the right hand side, they will be found on the north or west side of streets, and the even numbers on the south or east side.

Estimating Distances: Except on a few business streets, 25 feet is allowed for each Street Number. Thus, No. 105 would be a quarter mile from the beginning of the street; No. 210, a half-mile; No 420, a mile, etc.

Public Streets which have not been accepted by the City are indicated by an asterisk: if accepted in part only, by a double asterisk; if no asterisk, the street is accepted.

Map: Location of each street on the Map is indicated by letter and figure following street description.

Ward Lines: The Ward in which a street is located is shown in the description of the street. If part in one Ward and part in another, the numbers falling in each are indicated.

Abbreviations: Al, alley; av, avenue; ct, court; e, east; fr, from; h, house; n, north; nr, near; pl, place; r, residence; rd, road; s, south; sq, square; ter, terrace; w, west; wd, ward. For other abbreviations see Index to Contents.

Common Sense About City Directory Circulation

THE TRUE VALUE of advertising circulation is circulation consulted.

TO BE EXACT by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half daily consultations for each book for THREE HUNDRED and FIVE days, therefore—

$$1000 \times 3\frac{1}{2} \times 305 = 1,067,500$$

How Many Changes in a Year?

Out of every 100 People
listed in last Directory—

16% to 18% move away,
or die

New People, equal to 17%
to 19% move into town, or
reach listing age

26% to 29% more change their
address, or their jobs, or some
other vital fact that affects
their listing

59% to 67% of the People
listed have new information in
some particular, which can be
surely found only in the **NEW
DIRECTORY**

*Note: These figures are from repeated checks in numerous cities, and do
not vary 5% in any year*

These people are your Customers

How to Use the Directory

The City Directory is really a cooperative catalog of the inhabitants, business interests, and institutions of the City. But the very mass of the information contained, until one learns how to use it, may appear to be an obstacle to those unfamiliar with its arrangement.

Chambers of Commerce receive thousands of calls for information, many of which might be answered with a saving of time to all concerned by a simple reference to the Directory, if inquirers thought to look there first. At the suggestion of one Chamber, the following list of typical questions which can usually be answered by referring to the Directory, was drawn up. It is interesting, educational, and should help users to get more value from the Directory.

(Typical Questions)

About an Individual

How does he spell his name?
 What is his correct postal address?
 Is he married?
 What is his wife's name?
 Where does he live?
 How long has he lived there?
 Who are his neighbors?
 Does he own his own home?
 What is the neighborhood like?
 What does he do for a living?
 Where does he work?
 Who does he work for?
 How long has he held that job?
 Is he "head of the house" or a boarder?
 How many adults in family?
 Does he own the business?
 Is he a member of any partnership?
 Is he an officer in any corporation?
 Is he Secretary of any club or society?
 Who else is in the same profession?
 Is the woman single, married or a widow?
 What was the name of widow's husband?
 If removed from the City, where to?
 If deceased since last issue, date?
